

Diabetes and Dispensing of all Medications

Student with Diabetes = Current School Orders are required to be on file with the Nursing Team. Order updates must be provided for any change of instructions.

In-School Medications = All questions regarding in school medications should be directed to the Nursing Team.

Trained Staff may administer prescription and over-the-counter medications to students during the school day. Medications must be signed into the School Office by a parent or guardian and be delivered in the original and unexpired container.

Typically, students grades 6th and above may carry a supply of prescription or over-the-counter medications with authorization from the Nursing Team plus the School Principal (Self-Medication agreement). All medications (including inhalers and epinephrine injectors must have original labels. Younger students will be assessed for safety and skills prior to consideration of authorization to carry medications.
